

ZM II[®] Spray Nozzle

100% THERMAL PERFORMANCE

WITH

ZERO MAINTENANCE

EVAPCO is proud to introduce the NEW **ZMII[®] Spray Nozzle**—the latest advancement in **Zero Maintenance** nozzle technology. The **ZMII[®] Spray Nozzle** has been updated with a more robust design for greater durability and a new configuration for enhanced water droplet formation. The unique design features of the **ZMII[®] Spray Nozzle** eliminate the need to repair or replace spray nozzles.

ZMII[®] Spray Nozzle

Maintenance-Free Design

- The large 1-1/4" (3.175 cm) opening and 1-1/4" (3.175 cm) clearance allows for large debris to easily flow through the **ZMII[®] Spray Nozzle**.
- The fixed position design has no moving parts.
- Threaded design eliminates the need for troublesome grommets.

Additional Design Features

- **Durable, Long Lasting Construction!**
The **ZMII[®] Spray Nozzle** is molded from heavy duty ABS plastic for long life and 100% corrosion resistance. The **ZMII[®] Spray Nozzle** is stronger than other designs and is guaranteed for the life of your condenser.
- **Simple Design!**
With **No Moving Parts**, routine nozzle inspection, emergency nozzle repairs and unscheduled downtime is eliminated; while the new nozzle configuration creates a uniform spray pattern across the entire surface of the heat exchanger coil.
- **Retrofit Opportunity!**
Replace worn, inefficient spray nozzles with **ZMII[®] Spray Nozzle**. EVAPCO has easy to install retrofit water distribution assemblies featuring **ZMII[®] Spray Nozzle** for EVAPCO and other manufacturers' Evaporative Condensers to provide 100% coil coverage, improve nozzle performance and provide **Zero Maintenance**.
