

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), Model, and various performance metrics (67-115, 89.6-98.6, First Flow, Second Flow, Third Flow) for different ESWB models.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 flow rate columns (67-114). Rows list various ESWB models and their corresponding performance metrics.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 numbered columns (67-114) representing various performance metrics. The table contains a dense grid of numerical data points for each model.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for Model, 4/25/2022, and 67-115 for each of the 102 flow rates (Flow 67 to Flow 115). Each cell contains numerical performance data.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for Model, Flow, and Temperature (67-115) and rows for various ESWB models (ESWB 12-45N18X to ESWB 8-4512).

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 performance metrics (89.6 to 398.6). Each row represents a different model configuration.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 performance metrics (82-129). Rows list various ESWB models and their corresponding values for each metric.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with 35 columns (67-101) and 100 rows (4/25/2022 to ESWB 12-36112-Z). Each row contains numerical data representing thermal performance metrics for various models and conditions.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for Model, 4/25/2022, and 67-110 for each of the 102 flow rates (Flow 67 to Flow 110). Each cell contains numerical performance data.

Evapco ESWB Line Thermal Performance in 137V AC - Galvanized Steel Coil

Table with columns for Model, 4/25/2022, and 67-115 (representing different temperatures). Each cell contains numerical values representing thermal performance metrics.

Evpaco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 performance metrics (R1 through R48). Rows list various ESWB models and their corresponding values for each metric.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for Model, 4/25/2022, and various performance metrics (67-115, 89.6-98.6, Flow, First, Second, Third) for various ESWB models (e.g., ESWB 8-44K18-Z, ESWB 9-22F6).

Evpaco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), Model, and 60 columns of performance metrics (R1 to R60). Rows list various ESWB models such as ESWB 9-3519, ESWB 9-3669, etc., with corresponding numerical values.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 numbered columns (67-114) representing various performance metrics. The table contains multiple rows of data for different models and conditions.

Evapco ESWB Line Thermal Performance in USGib - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 columns of performance metrics (67-114). Rows include various ESWB models like ESWB 12-26N18, ESWB 12-33N18, etc., with numerical values for each metric.

Evpaco ESWB Line Thermal Performance in USGPM - Galvanizing Steel Coil

Table with columns for Model, 4/25/2022, and 67-99. Each row represents a different ESWB model and its corresponding thermal performance metrics across various conditions.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 36 performance metrics (67-102). Rows include various ESWB models like ESWB-36K12, ESWB-43H12, etc., with numerical values for each metric.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 numbered columns (67-114) representing different flow rates. Each cell contains numerical values representing thermal performance metrics.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for Model, 4/25/2022, and various flow rate and temperature parameters (67-115, 89.6-98.6, First Flow, Second Flow, Third Flow) for different ESWB models.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with 47 columns (Model, 67-112, 110-117, 115, 89.6-90, 98.6-98.6, Flow, First, Second, Third) and 47 rows of data for various model numbers from 4/25/2022.

for LIFE

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for Model, 4/25/2022, and 67-115 (Flow Rate) and 67-115 (Temperature). Rows list various ESWB models and their corresponding performance metrics.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with 35 columns (67-100) and 100 rows of data. Each row represents a model (e.g., ESWB 8-3519-Z) and contains 34 numerical values representing performance metrics across different conditions.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 30% EG. It contains multiple rows of data for various ESWB models (e.g., ESWB 8-3618-Z, ESWB 9-226G) and their corresponding performance metrics across different flow rates and temperatures.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 performance metrics (67-114). Rows list various ESWB models from ESWB 9-3369 to ESWB 9-3318.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 performance metrics (67-114). Rows list various ESWB models and their corresponding values for each metric.

Evapco ESWB Line Thermal Performance in USGIP - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 36 performance metrics (67-102). Rows list various ESWB models like ESWB 12-24M18, ESWB 12-24N18, etc., with corresponding numerical values.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 36 performance metrics (67-102). Rows list various ESWB models from ESWB 12-36L18X to ESWB 8-33K12.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 numbered columns (67-114) representing various performance metrics. The table contains multiple rows of data for different ESWB models.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 performance metrics (67-114). Rows list various ESWB models and their corresponding values for each metric.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 performance metrics (67-114). Rows list various ESWB models and their corresponding values for each metric.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for Model, 4/25/2022, and 67-117 (Flow) and 80-117 (First Flow) for various ESWB models. Includes a detailed header for flow rates and first flow rates.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for Model, 4/25/2022, and 67-110 for Flow, First Flow, Second Flow, and Third Flow. Rows list various ESWB models (e.g., ESWB 12-44N18-Z, ESWB 12-44O18-Z) and their corresponding performance metrics.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns for date (4/25/2022), model, and 48 test parameters (67-114). Each row represents a different ESWB model configuration, showing various performance metrics.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil

Table with columns: 4/25/2022, Model, and various numerical performance metrics across 31 different model types (e.g., ESWB 8-33118-Z, ESWB 8-34G18-Z, etc.).
