Service Platform Retrofit Kits

Available For ALL Manufacturers'
Cooling Towers, Closed Circuit Fluid
Coolers and Evaporative Condensers

Customizable **Layout**

Service platforms can be designed to accommodate existing site conditions including ladder location for easiest access to platform.

Improve **Safety**

Self-supporting platforms with access ladder designed for easy field installation. Available with safety cages and ladder guards.

Easy **Accessibility**

Our platforms allow for easy access to internal and external components of the unit.

Simplify **Maintenance**

The addition of a service platform retrofit kit can allow for a more simplified routine maintenance schedule for your unit.
